

# Highfields road construction projects

UPDATE

**Council advises there are multiple road construction projects planned and currently under way in Highfields.**

These works are vital to the Region and due to funding requirements must be completed by the end of the financial year. We are unable to avoid the timing overlaps.

We ask residents to be aware of the projects listed below, the road closure impacts and be prepared to plan their routes as these changes take place.

Detour signage will be in place for all projects. All efforts are being undertaken by Council to minimise the overall impact to the community. *Please see map overpage for worksite locations.*

## **Highfields, O'Brien and Kratzke Road intersections**

From early February 2024, Council will be relocating electrical and water services as part of early works for the Central Highfields Intersections project. These works will continue until the second half of 2024. Council is working in partnership with an external utility provider and the programming of these works is subject to specialist work crews.

Deep excavations are needed and a series of road closures on Kratzke and Highfields Roads will be in place for safety. Access to businesses and residential properties within the work zone will be maintained. A temporary side track connecting Highfields Road and O'Brien Road will be in place.

## **Kuhls Road Rehabilitation (stage B)**

Works to repair and rehabilitate Kuhls Road are continuing. From mid-January until the end of March, a section of the road between Peacehaven Park and Kenwood Street will be closed. Access is being maintained for properties within the closure area.

The last stage of this project (from Peacehaven Park and Cawdor Road) will occur between April and June 2024.

Peacehaven Park will remain accessible via detours.

## **Flood Recovery Program – Woolmer Road & Cawdor Drive**

As part of the 2022 Flood Recovery Program, works are required to repair/replace culverts that were damaged in the 2021/22 flood event. From late January, significant works are required on Woolmer Road, approximately 130m west of Parkway Drive. There will be a road closure in place at this culvert for three months and works are expected to start in early 2024.

Following this project, culvert works will be completed on Cawdor Drive, approximately 40m south of Franke Road. A road closure at this worksite is expected. Dates for these works are to be advised.

Council apologises for the inconvenience and thanks everyone for their patience and co-operation.

## **Further information**

If you would like to be included on future email updates for any of these projects please contact Lara Nunn, Toowoomba Regional Council on 4614 5172 or email [yoursay@tr.qld.gov.au](mailto:yoursay@tr.qld.gov.au)

To view more on the Flood Recovery Program, visit [www.tr.qld.gov.au/floodworks](http://www.tr.qld.gov.au/floodworks).

For all the programmed works across the Region, visit: [www.tr.qld.gov.au/roadworks](http://www.tr.qld.gov.au/roadworks)

## Locations of programmed roadworks in Highfields

Road closures at these locations will be in effect. Please follow detour signs.
