RURAL CENTRES AND TOWNSHIPS

FACT
SHEET

Rural Centres and Townships are distinct towns with a connection to the agricultural lands around them. They can vary in size and scale, and many have a low scale appearance with a strong heritage character.

They usually feature a central main street with formal planting and shops to service communities and industries. This typology also features other uses such as schools and civic buildings, as well as churches.

GREEN INFRASTRUCTURE IN THIS TYPOLOGY CONSISTS OF:
